DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 6-9 and 12-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Matsuura et al (5735248).

Figure 2 shows a gas fuel supply system including gaseous fuel in tanks 1, 2, a regulator 8 for decompressing the gaseous fuel, and the recited source pressure control means 9 which is seen to have a membrane, spring, valve in a passing hole, a connection to the fuel and a connection to a pipe from the intake.

Response to Arguments

Applicant's arguments filed 7/10/06 have been fully considered but they are not persuasive. The applicant argues Matsuura et al fail to disclose how the pressure regulator 9 operates and that its representation is not sufficient to show how it operates. The examiner contends firstly that since it is identified as a pressure regulator, it must then regulate pressure (obviously). The valve membrane has on one side a spring biasing the valve to an open position and pressure communicating with the intake manifold (negative pressure). Gaseous fuel pressure in pipe 26 operates on the membrane to push the valve element to the closed position

Allowable Subject Matter

Claims 10 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
